Udaya Anudeep

Senior Middleware & DevOps Engineer

Hyderabad, Telangana 500032, India | +91-9110561327
muvsanudeep@gmail.com | linkedin.com/in/anudeep-udaya

PROFESSIONAL SUMMARY

Senior Middleware & DevOps Engineer with 7+ years of experience administering, performance-tuning, scaling, and patching enterprise application servers, including Oracle WebLogic (11g/12c/14c), Apache Tomcat, IBM WebSphere, Oracle SOA Suite, and Apache HTTP Server, across 2,000+ server environments. Combines middleware administration with DevOps practice: CI/CD pipeline automation using GitHub Actions, Azure DevOps, and Atlassian Bamboo, plus configuration management and automation using Ansible and Shell scripting. Experienced with Docker, Docker Swarm, Podman, and Kubernetes, and with monitoring and observability using Datadog, Dynatrace, Prometheus, Splunk, and the ELK Stack to maintain high availability and system reliability. Led a 14-member nearshore team and supported 500+ developers. Microsoft Certified: DevOps Engineer Expert (AZ-400) and Azure Administrator Associate (AZ-104).

CORE COMPETENCIES

Middleware Administration, Oracle WebLogic Administration, Application Server Performance Tuning, CI/CD Pipeline Automation, DevOps, Configuration Management, Infrastructure Automation, Containerization, Monitoring and Observability, Security Patching, Vulnerability Remediation, Disaster Recovery, High Availability, Incident Management, Change Management, Problem Management, Production Support, Team Leadership, Banking and Financial Services (BFSI) Domain

TECHNICAL SKILLS

Middleware & Application Servers: Oracle WebLogic Server (11g/12c/14c), Oracle Fusion Middleware, Oracle SOA Suite (11g), Oracle Service Bus (OSB), IBM WebSphere Application Server, Apache Tomcat (8/8.5/10), Apache HTTP Server, Java JDK

CI/CD & DevOps Tools: GitHub Actions, GitHub Enterprise (EMU), GitHub, Git, Azure DevOps, Atlassian Bamboo, Bitbucket, Sonatype Nexus, SonarQube

Configuration Management & Scripting: Ansible, Shell Scripting, Python (foundational)

Containers & Orchestration: Docker, Docker Swarm, Podman, Kubernetes

Cloud: Microsoft Azure (Azure DevOps, Azure Log Analytics)

Messaging: IBM MQ, Apache Kafka, Solace

Monitoring & Observability: Datadog, Dynatrace, Prometheus, Splunk, SiteScope, Pandora FMS, APM tools

Logging & Analytics: ELK Stack (Elasticsearch, Logstash, Kibana), Azure Log Analytics, Power BI

Security, Certificates & CDN: Venafi (SSL/TLS certificate management), Akamai (CDN), Security Patching, Vulnerability Remediation

ITSM & Collaboration: ServiceNow, Jira, Confluence

Operating Systems: Linux (Red Hat Enterprise Linux - RHEL), Windows

PROFESSIONAL EXPERIENCE

IT Analyst (Middleware & DevOps Engineer)

Tata Consultancy Services (TCS), Hyderabad, India | Dec 2025 - Present | Client: Northern Trust

- Build and maintain CI/CD pipelines and workflows across 15,000+ repositories, integrating with code scanning, security, and deployment platforms
- Lead delivery of GitHub Actions CI/CD pipelines for 100+ applications as part of the migration from legacy Atlassian CI/CD tooling
- Set up and maintain on-premises self-hosted GitHub Actions runners across Linux (RHEL), Windows, and cloud environments, including multi-agent hosting and disk space management
- Design a ServiceNow catalog request and approval workflow with CMDB integration for archiving and deleting GitHub repositories in GitHub Enterprise (EMU)
- Troubleshoot CI/CD pipeline and runner issues to meet client delivery deadlines
- Support Docker, Bamboo, Bitbucket, Jira, Sonatype Nexus, and SonarQube for day-to-day DevOps platform operations
- Build automation with Shell scripting, Ansible, and GitHub workflows, cutting maintenance window time by 80%
- Administer Oracle WebLogic Server domains (11g/12c/14c) in clustered production and non-production environments, including Admin Server, Managed Servers, and Node Manager configuration
- Perform WebLogic and JVM performance tuning, including heap sizing, thread pools, and connection pools, to sustain uptime across 2,000+ servers
- Configure and maintain WebLogic JDBC data sources, JMS resources, and SSL/TLS certificates for deployed applications
- Deploy, redeploy, and troubleshoot Java EE applications (EAR/WAR) on Oracle WebLogic and Apache Tomcat, including IBM WebSphere and Apache HTTP Server administration
- Patch Oracle WebLogic, Apache Tomcat, and Java JDK for vulnerability remediation across 2,000+ servers

- Maintain high availability across 2,000+ server environments using Datadog, Dynatrace, Prometheus, and the ELK Stack
- Automate SSL/TLS certificate installation with Venafi and routine operations with Shell scripting and Ansible
- Execute planned and unplanned disaster recovery (DR) exercises, and handle ServiceNow incident, service request, and change management, including Major Incident and SWAT calls

IT Analyst (Middleware & DevOps Engineer)

Tata Consultancy Services (TCS), Guadalajara, Mexico | Sep 2024 - Dec 2025 | Client: Northern Trust

- Led a 14-member nearshore team delivering middleware and DevOps support
- Wrote and maintained Bamboo CI/CD pipelines, troubleshooting pipeline issues to meet client deadlines
- Supported 500+ developers using Sonatype Nexus (artifact storage), SonarQube (code testing), and Bitbucket (repository management)
- Managed Docker Swarm for containerized application hosting
- Administered Jira and Confluence upgrades and ongoing maintenance
- Performed security patching of Oracle WebLogic and Apache Tomcat for vulnerability remediation
- Automated SSL/TLS certificate installation using Venafi; automated daily operations with Shell scripting and Ansible
- Participated in Major Incident and SWAT calls to resolve client-critical issues
- Built a Power BI dashboard for inventory maintenance tracking
- Collaborated with OS, VMware, and network teams to resolve firewall, DNS, F5 load balancer, and hardware issues

Middleware and DevOps Administrator

Tata Consultancy Services (TCS), Guadalajara, Mexico | Dec 2021 - Sep 2024 | Client: Northern Trust

- Supported installation and maintenance of Bamboo, Docker, Bitbucket, Nexus, SonarQube, Jira, Confluence, Oracle WebLogic 11g/12c, Apache Tomcat 8/8.5/10, Oracle SOA 11g, IBM WebSphere, and Apache HTTP Server
- Wrote and maintained Bamboo CI/CD pipelines, troubleshooting pipeline issues to meet client deadlines
- Supported 500+ developers using Sonatype Nexus, SonarQube, and Bitbucket for artifact storage, code testing, and repository management
- Managed Docker Swarm for containerized application hosting
- Performed security patching of Oracle WebLogic and Apache Tomcat for vulnerability remediation
- Automated SSL/TLS certificate installation using Venafi and daily operations using Shell scripting and Ansible
- Managed ServiceNow processes for incident, service request, change, and problem management, and CMDB maintenance
- Participated in Major Incident and SWAT calls to resolve client-critical issues
- Collaborated with OS, VMware, and network teams to resolve firewall, DNS, F5 load balancer, and hardware issues
- Built a Power BI dashboard for inventory maintenance tracking

System Engineer (Middleware Administrator)

Tata Consultancy Services (TCS), Hyderabad, India | Jun 2019 - Dec 2021 | Client: Northern Trust

- Administered Oracle WebLogic, Apache Tomcat, Oracle SOA/Oracle Service Bus (OSB), IBM WebSphere, and Apache HTTP Server
- Supported 150+ Java-based applications across non-production and production environments
- Monitored server performance using APM tools, SiteScope, Pandora FMS, and Splunk
- Supported Akamai (CDN) configuration for public-facing applications
- Developed scripts and automation tools to improve system efficiency
- Resolved and escalated issues with a focus on quality of service
- Trained and mentored junior engineers

EDUCATION

Bachelor of Science in Electrical and Electronics Engineering

VR Siddhartha Engineering College, Vijayawada, India | April 2019

CERTIFICATIONS

- Microsoft Certified: DevOps Engineer Expert (AZ-400)
- Microsoft Certified: Azure Administrator Associate (AZ-104)

TRAINING & ADDITIONAL LEARNING

Programming for Everybody (Getting Started with Python); Python Programming: A Concise Introduction; Web Design for Web Developers; Git Started with GitHub; Git & GitHub Crash Course
